

EAR CONING BENEFITS

1. Built up ear wax for long years is removed (a recent study says that most “hearing loss” stems from impacted ear wax).
2. Earaches due to allergic inflammation are relieved.
3. Sinus congestion and pressure is relieved.
4. Tinnitus and Swimmer’s Ear are cleared away.
5. Ear Infections are stopped.
6. Hearing is balanced and your head feels lighter.
7. Regular ear coning rules out the use of hearing aids, unless the hearing loss is from infection and mastoiditis.
8. Great for colds, bronchitis, before plane trips, allergies, sinus, hearing loss, tinnitus, vertigo, smelling problems, etc.

NO side effects
NO pain
NO discomfort
NO fear
